    Are you looking for solutions to exercises and problems in
    <i>Introduction to Algorithms</i>?

    <p>

    If you are, then see the frequently asked
    question and answer below.

    If you request solutions from me, I will not respond.

    From July 2004 through June 2008, I was the director of the <a

    Writing and Rhetoric.

    <p>

    I occasionally taught a graduate Computer Science course on how to
    write papers and how to give talks. I publish a <a href="Cormen-

    on mentoring women in computer science in which a couple of my
    students and I were interviewed.
